

Boneless Raw Mix for 80% meat/10% bone equivalent/10% organ (Makes about 9 lbs of product):

- 6 lbs Boneless Meat but not ground (Beef, Pork, Chicken, Turkey, Rabbit, etc.)
Beef - Chuck steak, Chuck roast, Bottom Round, Top Round- think cheap meat so it has more fat
Chicken choose darker meat like thighs, Pork choose fattier cut such as roast with layer of fat
- 2 lbs Heart (Beef, Chicken, Pork, etc. Start slow with heart, can give some cats runny stool if given too much at once, make sure you add more of the other boneless meat if you don't use as much heart)
- 1 lb. Secreting Organ such as Liver, Kidney, Pancreas, Spleen, Brain, Testicles, etc. (At least half of that must be Liver 0.5 lb)
- 7 tablespoons Now Bone Meal Powder (or amount called for with a different calcium supplement)
- 4000 mg Salmon Oil
- 100 mg Vit B Complex
- 800 IU Vit E
- 5000 mg Taurine
- 0.25 teaspoon Kelp
- 1 teaspoon Sea Salt
- Just enough water to mix in the bone meal supplement

I use the 7mm coarse grinding plate for boneless meat or a ½ inch extra large grinding plate for an even chunkier texture.

Where I get my supplements:

Now Foods Bone Meal Powder: https://smile.amazon.com/NOW-Foods-Bone-Meal-Powder/dp/B000MGR1J0/ref=sr_1_2_a_it?ie=UTF8&qid=1494335044&sr=8-2&keywords=now+bone+meal

Salmon Oil: http://smile.amazon.com/gp/product/B0001VV4GM?ref=sns_myd_detail_page

Vitamin B:
